

COMPANY HISTORY

RVE, Inc. is the beneficiary of a long succession of professional engineers beginning in 1959 with the formation of a primarily structural engineering firm by William B. Ogletree, P.E. The firm has changed ownership and names since 1959, but has maintained a dedicated commitment to service begun by Mr. Ogletree. All records and client histories remain on file from the beginning. We are honored to have retained many clients for decades, still serving them today; Client 2 – US Navy, Client 5 – Sherwin Alumina (Formerly Reynolds), Client 6 – Port of Corpus Christi, Client 7 – City of Corpus Christi, and many others.

Our client base has grown to more than 800 and includes a diverse mix; city, county, state, federal, military, port authorities, commercial, industry, oil and gas, land developers, and private individuals. The firm has also grown into a multi-service civil engineering and surveying firm offering a variety of services. We offer our clients a comprehensive selection of services that can include feasibility studies, planning, design, bid assistance, construction inspection and complete project management.

COMPANY PHILOSOPHY

We strive to assist our clients in identifying their needs. We are committed to the notion that:

A PROJECT FULLY DEFINED IS A PROJECT PARTIALLY DESIGNED.

By carefully listening to our client's needs, we can succinctly define the required tasks and develop an efficient, cost effective solution. Our guiding principles for any project are to:

Work Safely

Focus on Accuracy

Meet Schedules

Stay in Budget

ENGINEERING

Registered Professional Engineers and Engineering Technicians providing conception to completion engineering services including project planning and cost estimating, design and construction plan preparation, and project management through construction.

CIVIL

- Infrastructure

Paving, Utilities, Drainage, Water, Sewer

- Land Development

Residential, Commercial, Industrial

- Permitting

USACE, GLO, TCEQ, TxDOT

COASTAL

- Shore Protection

Breakwaters, Seawalls, Bulkheads, Erosion Control

- Port Facilities

Dredging, Docks, Yards, Rail, Storage

SPECIAL

- Security Systems

Fencing, Barriers, Gates, Surveillance, Access Control

- Project Management

Bid and Proposal Evaluation, Construction Coordination, Inspection

SURVEYING

Registered Professional Land Surveyors and Survey Technicians providing a full compliment of surveying services, on land and in the water.

GENERAL

- Boundary
- Mortgage
- Topographic
- Rights of Way/Easements
- Bathymetric/Hydrographic
- Pipeline/Underwater Depth of Cover
- Well Locations
- Platting
- Dredge/Earthwork Volumes
- Construction Staking

SPECIAL EQUIPMENT

- Total Station
- GPS
- Side Scan Sonar
- Gradiometer
- Fathometer
- Automated Hydrographic Survey System
- 18 ft. SeaArk Survey Vessel
- 28 ft. Pontoon Survey Platform
- 21 ft. MonArk Boat with Twin Outboards

CADD

The CAD department of RVE includes decades of combined experience with the use of Computer Aided Design systems. The experience and continuity of the RVE staff results in the staff being thoroughly familiar with the methods necessary to efficiently utilize CAD's capabilities in general, and a thorough familiarity with the in-house processes necessary to ensure quality and completeness of design.

- 3D Structure Modeling & Renderings
- Autodesk 3DS Max
- Civil 3D (2011)
- AutoCAD (2011)
